

25 YEAR RE-REVIEW

Executive Registry

600-452

15 January 1960

MEMORANDUM FOR THE RECORD

STAT

1. On 15 January 1960, [redacted] came into my office pursuant to his request for an appointment and my response thereto.

STAT

2. [redacted] stated that he had applied for a job in the Agency a year or so ago while he was still attending Georgetown University.

STAT

3. [redacted] stated that while he is very happy and quite busy in his work, he felt that he had a contribution he could make to the U. S. Government because of his foreign background and knowledge of languages and he is, therefore, interested in obtaining either full or part-time employment with the CIA. [redacted] said that he really was not aware of the status of his application since he had no communication from us in quite a long while and since he had twice written in to inquire but had received no reply to either letter. I explained to [redacted] that for the past year we had done little or no hiring of new personnel outside of the clerical and stenographic fields, but I would look into the status of his application and he would receive a letter from our personnel office advising him of the situation insofar as his own prospects for employment with us are concerned.
